BEAUTIFUL ARE
SCENES IN HAROLD
WRIGHT'S STORY

"The Eyes of the World" Shown Here
Today Is Indeed a Great Feature.

Departing from the merely spectacular and concentrating its essence into a powerful love story, gorgeous California scenic settings and elaborate musical attributes, "The Eyes of the World," at the Washington and Gem Theater this afternoon and tonight offers something different in pictorial drama from the run of great film offerings put forward of late. Represented in this achievement are Harold Bell Wright, author of the famous story, which has had a sale of over two millions copies in book form, and W. H. Clune, who was associated in the production of "The Clansman" ("The Birth of a Nation") and other large film ventures.

The noted author amplified the story for this production and personally assisted in the work of putting his characters on the screen. While "The Eyes of the World" is primarily a romance, it is melodramatic in the best sense, bristling with adventure, hazard and dramatic clash, as well as idyllic charm. The cinema version is in nine acts, was seven months in making at unlimited cost on the actual scenes of the story in southeastern California.

The qualities that gave the book such phenomenal sale are intensified in the pictorial version, which has a wealth of gorgeous photographic settings. The presentation is a lavish one in every way. In numerous cities it has broken all theater records.

An elaborate musical setting is one of the features of the production.

I have for sale: 1 Miller Gem Steel range, for coal or gas; 1 sideboard; 1 dining table; 2 beds; feather pillows; 1 book case; 2 dressers; 1 rug 12½ by 13½ feet; 5 lamps; 2 clocks; 1 coal vase; 2 tabraces; 1 gas iron; 2 clothes racks; 1 clothes basket; 1 chamber set; 1 pair army boots; 1 hall tree; picture frames; 1 coal heater; 2 gas heaters; other small articles. A STUDEBAKER THAT HAS SAVED MONEY FOR ITS OWNER

I bought my Studebaker from your agent, D. M. Smith, at Flint, Mich., last year. I used it continually on my farm.

I have a farm of 140 acres, with good crops, and this wagon has paid all the expenses.

Two years ago my son put on three tons of sugar beets and hauled it over frozen ground to the scales.

Last summer we hitched a leader behind it and drew our hay to the barn.

This wagon has not been shelved half the time for two years, and for years yet has never broken a wheel or an axle.

John H. Wood,
Flushing, Mich.

Not a broken wheel
or axle
—in use 37 years
—still good for haying

Think what it means to
get 37 years and more
work out of a wagon.

Cuts down the cost—doesn't it?

The Studebaker wagon will stand any reasonable strain.
We know what Studebaker wagons that we have sold have done.

Come in and let us tell you what our experience has been with the Studebaker people, our experience with Studebaker wagons and the experience of those to whom we have sold Studebaker wagons.

WHEAT CROP WAY
BELOW LAST YEAR'S
NATIONAL MEETING

Crop Report Shows That Fourteen Per Cent. of What Was Sown Was Abandoned.

The condition of Kentucky's wheat crop indicates a probable production of about 6,143,000 bushels this season compared to 12,029,000 last year, according to the May crop report issued jointly at Frankfort and Louisville by State Commissions of Agriculture W. C. Hanna and H. F. Bryant, Kentucky field agent of the United States Bureau of Crop Estimates. Probable production is estimated at 624,000 bushels compared to 744,000 bushels last year, and tame hay a 1,410,000 tons compared to 1,561,000 tons produced last year. Actual production this season may prove greater or less than these estimates, depending on whether conditions are particularly favorable or unfavorable between now and threshing time and hay harvest.

Heavy reduction of wheat acreage in Kentucky last fall, late sowing, poor condition this spring and abandonment of fourteen per cent. or even the reduced acreage that was sown, are the chief conditions warranting such a low estimate of the wheat crop. Rye came through the winter a little better than wheat, but still much below average. Wheat acreage left for harvest is now estimated at 618,000 acres compared to 1,046,000 last year; condition this month is 71 per cent. of normal compared to 103 per cent. this time last year.

Rye condition is estimated at 82 per cent. of normal, compared to 100 per cent. this time last year. The late spring has delayed farm work severely, plowing being only 60 per cent. completed compared to 75 per cent. usually done by May 1. Spring planting is forty per cent. done compared to an average of 45 per cent. usually done by this time. Pasture is 80 per cent. of normal compared to the ten year average of 85 per cent. Ten per cent. of last year's hay crop in Kentucky (156,100 tons) is still on the farms.

Livestock losses during the winter have not been unusually heavy, except in some localities, though the spring condition of stock is slightly below average, excepting hogs, which are about average. Losses from each 1,000 head during the winter and spring were: Horses and mules 22; cattle, 40; sheep, 60; lambs, 65; swine 45. The ten-year average losses are: horses and mules 20; cattle 34; sheep 59; swine 65.

OH, JOY!

Growers in the sections where the luscious strawberry is raised are saying that there will be a LARGE crop of berries this season should the recent rains be followed by a spell of good warm weather. Home-grown berries are due here in about two weeks.

SHARP RISE IN THE RIVER.

Due to the heavy rains of yesterday and last night the river is rising at this point, and will probably cover a large portion of the lowlands around here, but will not go above the thirty-foot mark, it is thought.

"IN THE DAY'S NEWS."

Foremost among the participants in the Methodist General Conference at Des Moines has been Bishop Joseph F. Berry, who today enters upon his sixtieth year and who within a few days will complete sixteen years of service in the episcopate. A Canadian by birth, the son of a Methodist minister, he joined his father's church at the age of 14, as the result of a revival. Two years later he began to preach and for several years thereafter enjoyed a reputation throughout Michigan as "the boy preacher." As a lad he had learned something of the printer's trade, and as a pastor he wrote successfully for the press. His journalistic instinct led him into the Methodist journalism, and from 1894 until his election as a bishop in 1904 he edited the young people's weekly of the Methodist denomination.

"SCREEN OPINION" SAYS
TO YOU "RUN IT."

If thrills are the makings of a serial—and there isn't any question they are—then you should see this one. And above all you should run it. It's an animal picture—and they are regular real live animals, too. The locale of a great portion of the story is the jungle and the story presented is just a little bit different from the average run of serials. It is interesting even to adults. Juanita Hansen handles the role in a sincere manner and certainly proves something of a dare-devil. George Chesebro and Hector Dion have the leading male roles and are splendid opposites, Chesebro handling the hero role to advantage and Dion playing villain to a finesse.

The picture which the above article refers to will be shown at the Gem Theater May 20 and 21.

FIDDLERS IN COURT:

PROVES OWNERSHIP.

New York.—Harry Moskowitz, a musician playing in the Hotel Commodore grill room, attempted to prove his ownership of a violin he alleged had been stolen by playing several numbers on it in Yorkville court. Moskowitz said the instrument disappeared several days ago and through a friend he found it in the music store of Julius Kessler, 220 East Eighty-sixth street. Kessler told him it had been brought there by William Miller, a waiter at the Commodore, and detectives were called. Miller was arrested when he came to the store to get his money.

The impromptu concert was arranged by William O'Shaughnessy, deputy assistant district attorney, who asked the musician how he could identify the instrument.

"By the touch and sound," Moskowitz replied. He seized the bow and was allowed to play several times before the court interrupted. Miller was held in \$1,500 for the grand jury.

A telegram to Harry L. Walsh here this morning announced the death in Louisville yesterday of Mrs. John D. Wyatt, widow of Judge John D. Wyatt. BLOOD KILLS DISEASE GERMS

Pure, Healthy Blood Destroys Germs, Removes the Waste Tissues and rebuilds Bone and Muscle

If Your Blood Is Weak, Don't Delay Take Gude's Pepto-Mangan, the Red Blood Builder.

In your body are two gallons (more or less) of blood, which is constantly at work keeping your system free of germs, removing the waste tissues, and building up new strength in bone and muscle.

This blood must be healthy or your resistance to disease and fatigue will be lowered, you will lose weight, and both body and mind will have less vigor.

For building up blood weakened by overwork, illness or other causes, Gude's Pepto-Mangan, for years prescribed by physicians, is now generally known as a prompt and harmless tonic.

Gude's Pepto-Mangan soon produces marked beneficial results. The tired, worn-out, run-down feeling disappears. And in its stead a vigorous wholesomeness and happiness proves that the blood has been supplied with the sorely needed richness to supply the entire system with renewed strength.

When you buy Pepto-Mangan at your druggists, be sure the name "Gude's" is on the package. You can get it in either liquid or tablet form. The name "Gude's" is not on the label if it is not Pepto-Mangan.—Advt.

REDMEN'S NEXT MEETING AT BOWLING GREEN.

With the installation of the new officers, elected Tuesday, and the selection of Bowling Green as the place for the meeting next year, the Kentucky Great Council of the Improved Order of Red Men closed a two days' session at Lexington Wednesday.

More than 100 members took the Great Council Degree during the meeting. In addition to the installation of the new officers talks by members of the tribes represented at the Great Council were given Wednesday on the growth and prosperity of the order.

Amendments to the by-laws also were discussed at this time. One of the more important amendments provides for an increase of \$400 a year in the salary of the Great Keeper of Records.

She accuses him of cruel and inhuman treatment for a period of not less than six months and asks for absolute divorce with restoration of her maiden name, Mollie Wolf, reasonable attorney fee, for costs expended and for all general, special and proper relief.
